Ms. Roche Casipong
HR Recruitment
Jairosoft, Inc.
Holy Trinity Avenue, Holy Trinity Village
Cabantian, Davao City

Dear Ms. Casipong,

I am writing to express my interest in an internship opportunity at Jairosoft. As a third-year Computer Science student at the University of Mindanao, I have developed a solid foundation in both frontend and backend development, mobile development, digital marketing, content creation, and data analysis.

I have gained extensive experience with various programming languages. My coursework and projects have equipped me with skills in building web applications and creating dynamic user interfaces. I also have experience with databases like MySQL and Firebase. Additionally, I have worked on mobile development projects using Flutter, which has broadened my understanding of cross-platform app development. Furthermore, I have honed my design skills using Figma, allowing me to create user-friendly and visually appealing interfaces.

I am inspired by Jairosoft's creativity and dedication to delivering cutting-edge web solutions. My programming and design skills, combined with my enthusiasm for web applications, will allow me to contribute effectively to your projects. I am eager to bring my background in development to help Jairosoft continue to innovate and succeed.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to Jairosoft.

Sincerely,
James Paul S. Balagat
